

## Training and consultancy services

drugsandstuff.co.uk is a public health initiative, run by John Mosley. My clients include drug and alcohol action teams (DAATs), third sector organisations, social services, LEAs & schools, PCGs and businesses in the UK and elsewhere. You benefit from a truly independent trainer and consultant, with no preferred approach or agency. Training costs start from £450 per day, and may be negotiated, especially for smaller organisations. Training is tailored to those working with young people and/or adults. I work closely with you to devise and deliver practical solutions that can help your workers to better support your clients or help your organisation deal sensibly with the areas of work I cover. For staff and clients / service users alike, I aim to improve understanding, increase confidence and develop skills that will enable positive change in people's lives.

### Best practice

I pride myself on the quality of my work. Many bookings are for repeat work. I aim to build on practitioners' existing knowledge by:

- Providing up to date information
- Encourage & develop reflective practice skills
- Encouraging participants to identify the links between their services & other local partners
- Strengthening professional & ethical standards
- Adding depth, context & external experience to the training offered by your internal human resources people
- Using innovative and enjoyable training methods to enable all participants to achieve excellence.

Please feel free to contact me to discuss your requirements. I'm very flexible with my approach, seeking to match or exceed all your needs.

### Consultancy & Project management

I can provide a number of consultancy services to assist services and partnerships to develop and improve. These include:

- Resource development
- Research
- Improving user involvement
- Diversity audits
- Consultation exercises
- Workforce development and training needs analysis
- Strategy and policy development.

I provide impartial solutions, working with the skills and expertise that exist locally.

## Training courses

Training courses are specially written for each organisation. I do not have an open access programme, so the courses are not centrally provided by drugsandstuff.co.uk, and individuals are not able to book places directly. Previous courses include:

### Drug and Alcohol training

- Drug and alcohol awareness
- Advanced drugs
- Young people and drug use
- Working with parents
- Child protection and drug use
- Drugs in the workplace
- Alcohol and older people - 50% discount
- Parental drug use
- Improving services - working with LGBT people
- Drugs refresher - 3 hours course
- Drugs and licensed premises
- Training the trainers
- Alcohol training - various courses, e.g. aimed at managers, parents, social workers, human resources staff
- Smoking cessation - aimed at service users or staff supporting service users.

### Infection control training

- Infection control - a range of courses for care workers, drug workers, school staff, etc.

### Hepatitis training

- Hepatitis ABC, for a range of staff / service users.

### LGBT training

- Opening your organisation to LGBT people
- Engaging with the LGBT Community
- *All courses can be adapted to focus on LGBT communities.*

### HIV training

- HIV awareness
- Working with positive people
- Coming to terms with an HIV Diagnosis
- HIV: Managing a Chronic Condition
- Current health needs of people with HIV
- Gay Men & HIV
- Sex & living with HIV: To tell or not to tell
- Adult care & HIV
- Older people and HIV: Improving services
- Working with Children & Young People Affected by HIV
- Working with Families Affected by HIV
- 'To Test Or Not To Test - that is the Question' (HIV Testing)
- Training the Trainers
- HIV & the Workplace.

### John Mosley

John has been facilitating groups, and providing training and educational courses since around 1986. He has worked in the drug and HIV fields since the early 1990s.
